Education

- Intermediate**
SRI CI C VIDYA CHAUKIYA
GHZIPUR
March 2018 - April 2020
- BCA**
limt group of college Greater
Noida
August 2021 - May 2024

Technical Skills

- RESTful APIs
- Responsive Web Design
- CSS3
- HTML5
- MongoDB
- Express.js
- Node.js
- Git
- Redux
- React
- JavaScript

Certifications

- Construct Week Project** 
Masai School
This experience has been a great learning opportunity, allowing me to apply my skills in MERN stack development, problem-solving, and teamwork.
- Xto10X hackathon** 
Masai School
It was an amazing experience to collaborate, innovate, and solve real-world challenges. Grateful for the learning and networking opportunities

Aamir Hamza

Full Stack Web Developer

Professional Summary

Dynamic Full Stack Web Developer with proficiency in JavaScript and the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in collaborative development and effective problem-solving. Adept at using Generative AI and swiftly mastering new technologies for enhanced project execution and innovation.

Projects

QUIZ-APP [Live Demo Link](#) [Github Repo Link](#)

- React
- HTML5
- tailwind css
- JavaScript
- Git
- Created a gamified learning platform using React and JavaScript, enhancing education with interactive quizzes and AI-powered personalization.
- Developed real-time leaderboards and progress tracking features for competitive user engagement.
- Designed an intuitive user interface with Tailwind CSS for seamless transitions and interactive animations.

Fitness-tracker [Github Repo Link](#)

- React
- Express.js
- MongoDB
- Node.js
- Git
- Responsive Web Design
- HTML5
- CSS3
- Designed and implemented server-side APIs using Node.js and Express.js to manage and retrieve user workout data.
- Developed responsive frontend components with React.js to provide a seamless user experience across various devices.
- Created and optimized database models and queries using MongoDB for efficient data storage and retrieval.
- Ensured smooth integration between frontend and backend components, enabling real-time data updates and user interactions.
- Conducted thorough testing and debugging to maintain the application's reliability and stability.
- Utilized Git for version control to manage code changes and collaborate effectively on the project.
- Incorporated best practices and latest web development trends to continuously enhance the application's performance and user experience.
